Hello! Grab your safety goggles and lab coats and mark your calendars for July 13, 2015- July 17, 2015 from 9-11:30 a.m.! It's time to start a new exploration with God at SonSpark Labs VBS. This year we will experience God's love for us in a scientific way as we try to figure out $GP4U=J$, or God's Plan for You is Jesus! We will be exploring the Bible as we learn about God's plan to make us, to be with us, for us to know him, to save us, and to love us forever. We are looking for scientists to help us prepare an exciting week full of experiments demonstrating God's unending love. We are also searching for young scientists ages 3 through those entering 7th grade willing to join in the fun! Please help us make God's love explode in our faith labs! If interested, please contact Shayna Heintzeman, Taryn Myers, or Pastor Mike.

Our Mission Statement of St. John's UMC

The purpose of St. John's is to both evangelize and nurture. We are called to show God's love in our world by giving aid and by spreading the Good News of Christ. We in turn provide an atmosphere for nurturing where Biblical truths are shared enabling people to become spiritually enriched. By providing this, people will learn and through learning, become more effective witnesses.
