Visits

All page impressions from the same computer are summarised as one visit. The visits are uniquely identified on the basis of the IP address and the browser ID. As several people may share a computer (e.g. in a cybercafé), the number of visits may not be the same as the number of visitors.

Search engines

Using this analysis, you can identify the search engines used by your visitors. You can also see how many visitors reach your pages via the respective search engines.

Search engines	Visits	%
www.google.com	2	100.00 %
Total	2	100.00 %

Search terms

The table shows the search terms by means of which your website was found most frequently. Every row contains a search term. For example, if somebody found your website by means of the phrase "repair car", both "repair" and "car" will be displayed as independent terms in the table.

No data available.

Most frequently accessed pages

You can see the most frequently accessed pages. Only fully loaded pages are counted. Individual page elements, such as images or other elements, are not counted individually. This includes all files with the extensions .png, .jpg, jpeg, .gif, .swf, .css, .class, and .js.
