

Up to date information as of March 19, 2020

These are certainly challenging times. We are blessed to have the technology to overcome "social distancing" when we can't meet face to face. As pastor, I want to offer some encouraging words.

1. Historically, God has always taken care of those who trust him and call on him.
2. No virus affects God
3. God is the master of resurrection and life.
4. Although we may not understand what is going on, God is with us.
5. Pray that God will intervene with His mighty right hand.
6. Praise God and thank him for things like flowers, sunshine, each other.
7. Please let me know if you need anything at all, even if you just need to talk.

A new day is coming when we shall gather again and praise our awesome God for saving us.
