## Information about the evaluations

### Visitors

This evaluation shows how many visitors accessed your website. Visitors are uniquely identified on the basis of the IP address and the browser ID. If a visitor goes to your website more than once a day, only one visitor is counted.

### Sessions

This evaluation shows the number of sessions. A session starts when a visitor accesses your website and ends when he or she leaves it. A session ends automatically after 30 minutes without activity. If a visitor goes to your website more than once a day, multiple sessions are counted.

### Search Engine Robots

This evaluation shows which search engine robots have accessed the pages of your website. Search engine robots automatically search the content of websites in order to keep search engine entries up to date.

### Most Frequently Visited Pages

This evaluation shows which pages of your website were visited most often.

### Keywords

This evaluation shows the keywords with which your website was most commonly found in search engines.

### Referring Pages

This evaluation shows the websites from which visitors were transferred to your website.

### Browsers

This evaluation shows which browsers visitors used to access your website. This way, you know which browsers to optimize your website for, for example.

### Operating Systems

This evaluation shows which operating systems visitors used to access your website. This way, you know which operating systems are most popular with your visitors, for example, and you can optimize your website for these operating systems.

## Countries

This evaluation shows the countries from which visitors accessed your website.

## Continents

This evaluation shows the continents from which visitors accessed your website.
